SUMMARY

Frontend Developer with 1+ year of practical experience designing and developing modern, responsive, and user-centric web applications. Skilled in building scalable user interfaces, implementing efficient state management with Redux Toolkit, and developing SEO-friendly, high-performance applications. Strong understanding of responsive web design, clean architecture, reusable components, and maintainable code while following modern development best practices. Experienced with Git/GitHub and AI-assisted development tools including Claude, Codex, and Cursor to accelerate development workflows and improve productivity. Passionate about continuous learning, problem-solving, and delivering high-quality, intuitive user experiences.

SKILLS

Frontend:	Next.js, React.js, React Native, TypeScript, Tailwind, JavaScript, Redux Toolkit, HTML, CSS, Shadcn, MUI, Api Integrations, Framer Motion
Backend:	Node.js, Express.js, Python, Flask, FastApi, REST APIs, MongoDB, Postgres, Stripe, PayPal
Cloud:	Supabase, Firebase, AWS (S3), Cloudinary, Vercel
Others:	Git, CI/CD, CRM, n8n, LangChain, Codex, Claude, Cursor, aistudio

WORK EXPERIENCE

Xeverse.io

Junior Frontend Developer

Apr 2026 - Present
Karachi, Pakistan

- Leveraged Next.js Server-Side Rendering (SSR) to improve SEO, optimize page performance, enable efficient data fetching, reduce load times, and enhance overall application security.
- Utilized Redux Toolkit in multiple medium-scale projects to efficiently manage and share application state
- Integrated React Hook Form in multiple forms to mitigate unnecessary re-renders which costs performance
- Developed and maintained a WhatsApp automation bot using **whatsapp-web.js** to automate messaging workflows and improve operational efficiency.
- Leveraged Cursor, aistudio, Codex and other AI tools to accelerate development and implement scalable, high-performance solutions efficiently

Xeverse.io

Frontend Developer Intern

Oct 2025 - Mar 2026
Karachi, Pakistan

- Built scalable **Next.js** applications by integrating **Firebase Authentication**, **Firestore Database**, **Redux Toolkit** for state management, and **dnd-kit** for seamless drag-and-drop functionality.
- Developed custom components for reusability.

PROJECTS

FitCheck

- Developed an E-commerce web application using **React.js**, **Python (Flask)**, and **Firebase**.
- Integrated **Firebase Authentication**, **Firestore**, and **Tawk.to** live chat for secure user management, real-time data, and customer support.
- Built REST APIs with Flask to handle backend business logic.
- Optimized application performance, responsiveness, and user experience.
- **Awarded 2nd Position** at the **SSUET Project Exhibition**.

MicroFinance Web Application

- Developed a full-stack loan management system using **React.js**, **Express.js**, and **MongoDB**.
- Implemented secure authentication, CRUD operations, and REST APIs for loan and client management.
- Built reusable components and optimized database performance.

Elitotech Solutions – Corporate Website

- Developed a responsive corporate website using **React.js**, **Firebase**, and **Framer Motion**.
- Integrated Firebase Authentication while optimizing SEO, performance, and user experience.
- Built reusable UI components with smooth animations and interactive user interfaces.

Blogging Application

- Developed a blogging platform using **React.js**, **Firebase**, and **Tailwind CSS**.
- Implemented Firebase Authentication, Firestore, and complete CRUD functionality.
- Built responsive, real-time user interfaces with reusable components.

EDUCATION

Sir Syed University of Engineering & Technology (SSUET) *Feb 2026 - Present*
Bachelor of Science (BS) – Artificial Intelligence

CERTIFICATIONS

SMIT Certified
Web and App development certification from Saylani Mass IT Training Programme
